It has been a swift leap from bimetallism and greenbacks to "gold only." Even poor John Wanamaker has been able to clean up five millions on a monopoly of the national flag trade standard and a monopoly !

### THE MODERN SOLDIER.

In view of the greater force, range and rapidity of the modern fire arms than ever before, but results show that modern battles are not more deadly than those of our civil war. Tactics have changed. Instead of massing troops the modern method is to deploy them after the style of the fought at greater distances also, because of the greater range of bullets and projectiles.

The comforts of war have certainly increased. Camp outfits, including especially cooking apparatus, are superior. The modern methods of canning and dessicating of food, the substitution of aluminum for heavy iron utensils and many other improvements make the life of a soldier more worth living.

In addition to the articles provided by the government in its clothing and ration allowances, the man with a gun is now allowed to buy and have pipes, tobacco, soap, writing materials, pens, basins, blacking, brushes, silk handkerchiefs, matches, towels; and, in addition to his menu, cheese, canned igoods, dried fruits, develed ham, preserves, sauce, pickles, jam, ginger, spices and cranberry sauce.

Liquor is not permitted. While the government is necessarily strict in its regime, the progress of invention has done much for the soldiers and the government is disposed to give him every reasonable comfort that does not interfese with health and efficiency as a soldier.

## WASHINGTON STATE POLITICS.

Spokane Spokesman Review: Years may be required to uncover the stupendous shortcomings of the go to Dawson City. old Republican regime in this state. It took years to ferret out the deficit in the King county sheriff's office under Ex-Governor McGraw; and while Greenor McGraw was undoubtedly clear of complicity to these losses, and manfully made every effort within his power to meet the shortage, that it arose from some degree of negligence on his part, and that a long time was required to bring out the truth. To the credit of Governor McGraw, however, it should be said that he did not try to settle his notes with broken banks by pay-

ing 8 cents on the dollar. The people had begun to hope that after a multitude of scandals in the various state institutions; after the exposure of thievery of one kind and another in the city, county and state; and after the loss of enormous same of public moneys in broken banks and from "straw" bonds, the vast maof incompetency and fraud piled up be

Haying has been commenced, especially in the southern counties. The grass is ready to cut throughout this portion of the State, but it is delayed, owing to the rains. A small amount for six months. Give us the gold of hay has been injured somewhat by being rained upon. As soon as the weather becomes fair, haying will be general. The rains have caused some cherries, especially on the lower branches, to rot; the injury is not sufficient to cause a finatial loss, as there are more cherres than can be marketed or for which there facilities for canning. The rain likewise caused some strawberries to rot. While the rains have produced the foregoing, the good they did more than compensates.
